PROFILE

Software development manager with more than 12 years of experience. during which, I managed virtual teams of various roles to develop large-scale software products.

I have a strong ability to strategically think and apply knowledge of structure theories, frameworks, methodologies and practices to solve business problems through digital solutions.

Throughout my years of experience, I worked on designing and leading the development using latest technologies including but not limited to: Open Source Technologies such as (Vuejs, Material Design, Flutter, Ionic, Puppeteer), SPA, SSR, & AWS.

I worked as a **Software Development Manager, UI Consultant, and Front-End development Manager.**
